Map Tools

Map Zoom/Pan Tools

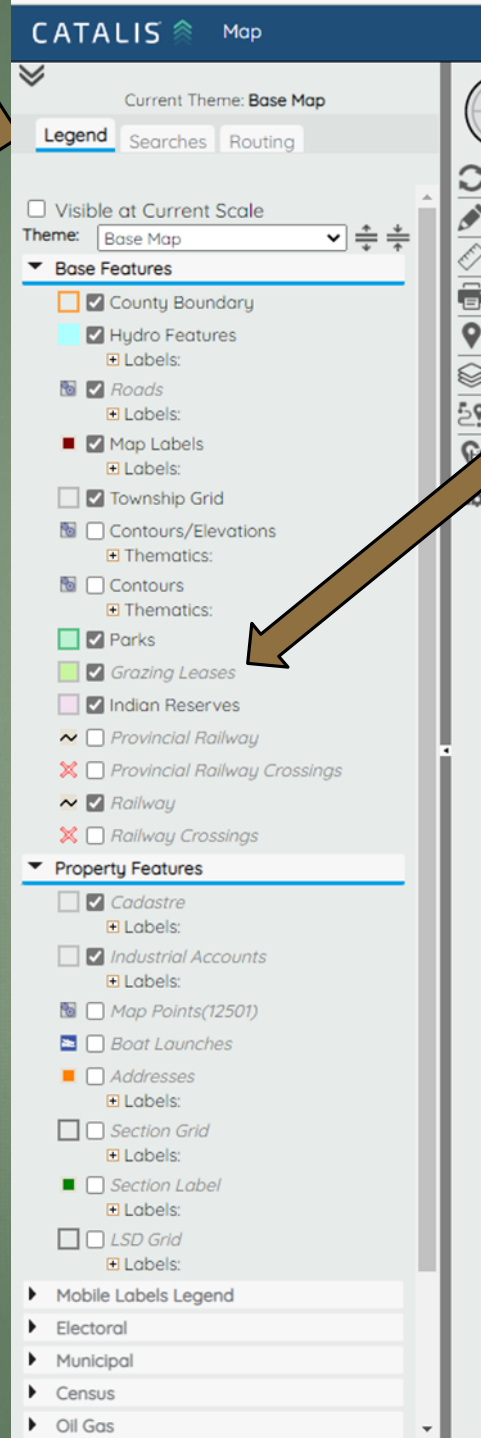

5

By default, the Legend Tab is selected. This is where you will turn on and off the layers that you would like visible on the map.

For Example:
Owner Names,
Road Names, Legal
Land Descriptions,
Speed Limit, etc.

Once layers are turned on, they will stay on even after you exit the map. The next time you log in the layers will be the same as the last time you logged in.

6

If a feature is “grayed” out that means it will not show at the current scale (see bottom right of screen for what your current scale is at) (hovering over feature will tell you what scale you need to be at)

Legend Tab

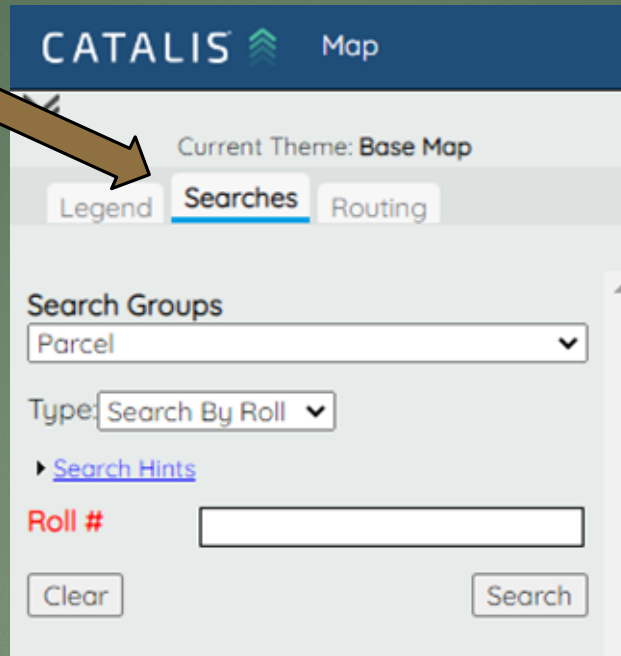

Legend Tab (Thematic)

7

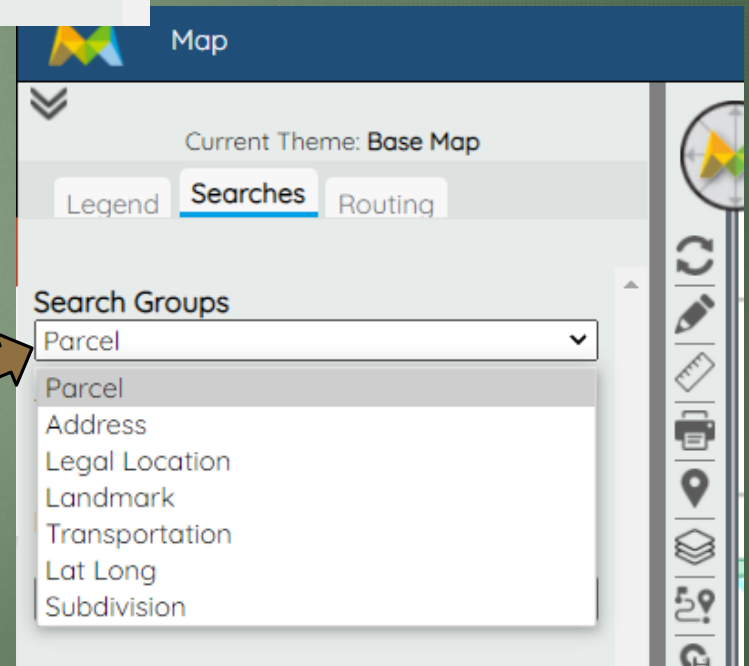

You can manipulate what is shown on map by clicking on the thematic beside each feature. For example: Transportation...you can choose what Speed Zones you would like to see shown on map (only 50 km/hr, etc)

The screenshot displays the CATALIS Map interface. The main window is titled 'CATALIS Map' and shows a map with various features. On the left, the 'Legend' panel is active, showing a list of features under the 'Current Theme: Base Map'. The 'Transportation' category is expanded, and 'Speed Limits' is checked. The 'Thematic Manager' dialog box is open on the right, showing the 'Speed Limits' configuration. It indicates the current scale is 1:314909 and that features are not visible at this scale. The 'Visible Scale (1:1 to 1:150000)' section is checked, and a list of speed zones is shown with checkboxes: 15, 20, 30, 40, 50, 60, 70, 80, 100, and 110 km/hr. The '50' km/hr zone is highlighted. The 'OK', 'Apply', and 'Cancel' buttons are visible at the bottom of the dialog. A map preview at the bottom of the dialog shows a road network with a dashed orange line indicating a selected speed zone.

To search for roll #, legal land description, rural address, etc. click on the **Searches Tab**.

Click on the **Search Group Dropdown** and pick what you want to search by.

Searches Tab

Long Legal Land Search

Default Legal
search is Long Legal

Drop down each section to
pick number:

Example: NW-11-45-23-4

Meridian = 4

Range = 23

Township = 45

Section = 11

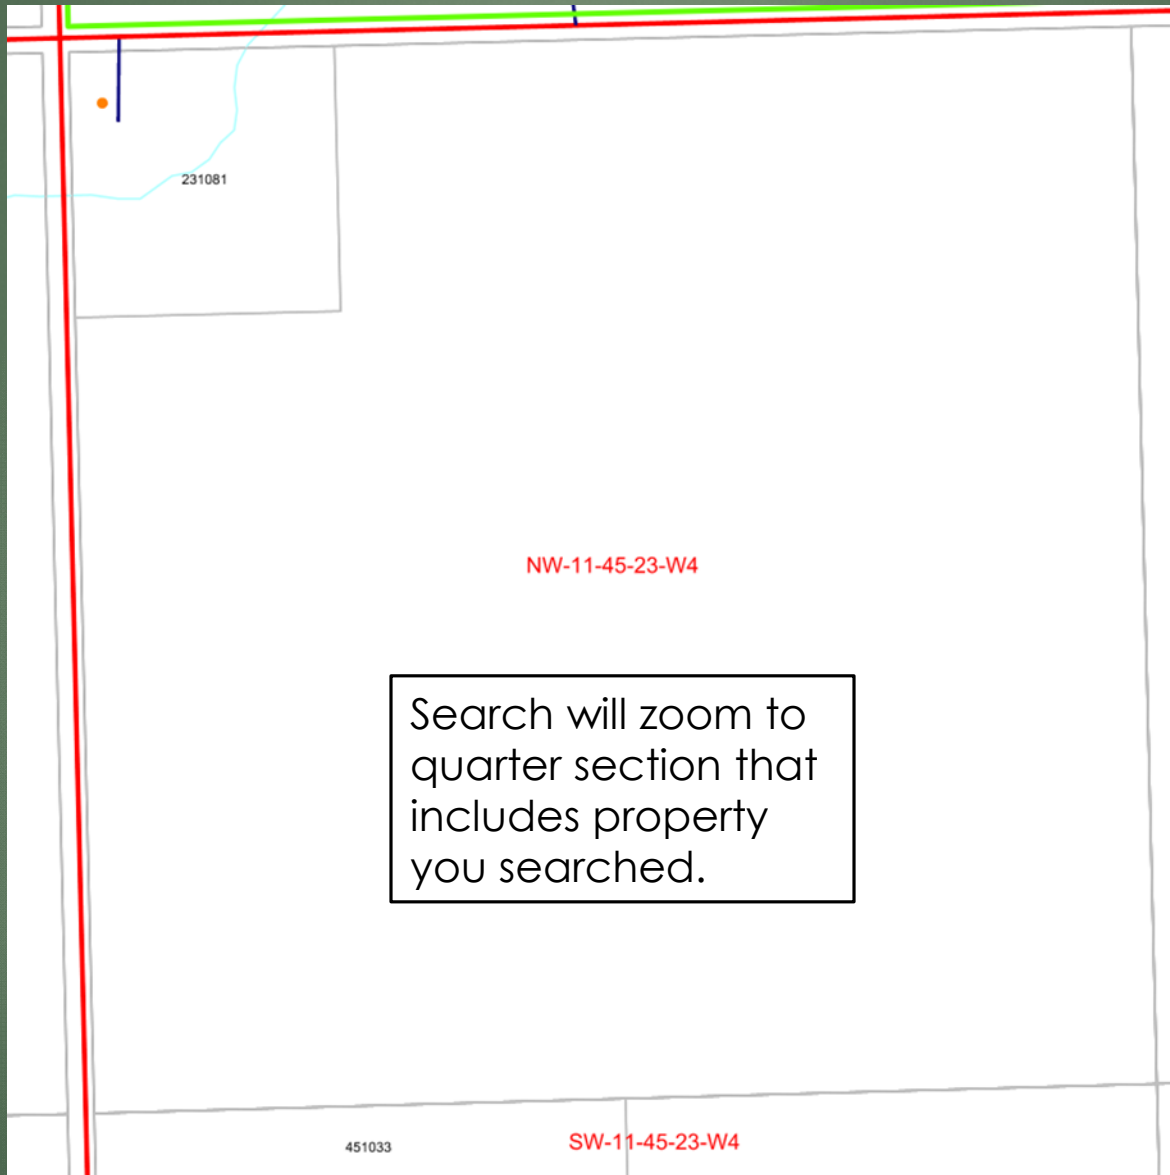

Part Section or LSD = NW

Then click Search

The screenshot shows the CATALIS Map interface. At the top, it says "CATALIS" and "Map". Below that, it indicates "Current Theme: Base Map". There are three tabs: "Legend", "Searches", and "Routing". The "Searches" tab is active. Under "Search Groups", a dropdown menu is open, showing "Legal Location" selected. Below this, there is a "Type:" dropdown menu with a list of options: "Search for Long Legal" (highlighted in blue), "Search for Short Legal", and "Search for Long Legal" (repeated). Below the "Type:" menu, there are several dropdown menus for "Meridian" (set to "- None -"), "Range", "Township", "Section", and "Part Section". At the bottom, there are "Clear" and "Search" buttons.

Long Legal Map

10

Short Legal Land Search

11

Drop down and
pick Short Legal

Drop down each section to
pick number:
Example:
Plan 1332HW
Block 1
Lot 10
Then click Search

Current Theme: Base Map

Legend **Searches** Video Data Routing

Search Groups
Legal Location

Type: Search for Short Legal

Search Hints

Short Legal Map

Address Search

- ▶ Example Rural Address:
77, 473051 RGE RD 242

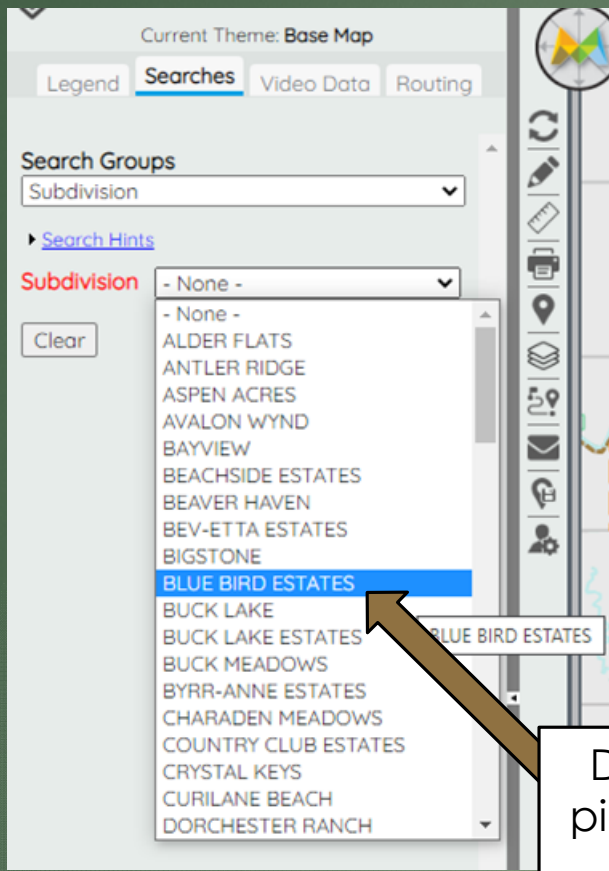

The screenshot shows the CATALIS Map interface with the following elements:

- Search Groups:** A dropdown menu set to "Address".
- Search Hints:** A link to expand search hints.
- Road Type:** A dropdown menu set to "RGE RD".
- Road Name:** A dropdown menu set to "242".
- House:** A dropdown menu set to "473051".
- Address:** A list of search results for the address "77 473051 RGE RD 242 - COL". The list includes addresses from 69 to 81, with the 77th address highlighted.
- Buttons:** "Clear" and "Search" buttons at the bottom.

Annotations with arrows point to the following fields:

- "Drop down and pick Road Type" points to the Road Type dropdown.
- "Drop down and pick Road Name" points to the Road Name dropdown.
- "Drop down and pick House Number" points to the House dropdown.
- "Select unit number" points to the highlighted address in the results list.

Subdivision Search

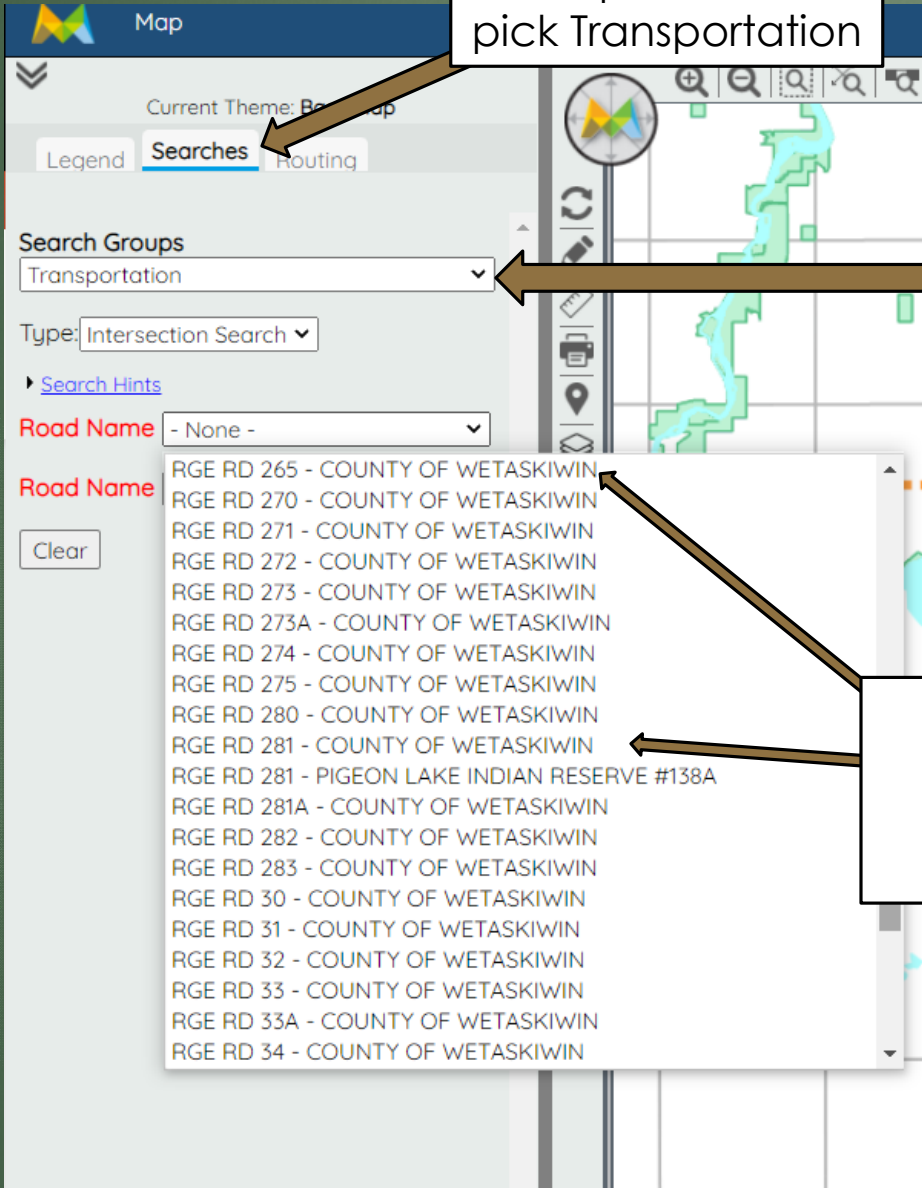

Drop down and pick Subdivision & click search

All parcels within Subdivision will be outlined in green. Double click on property for details.

1. Drop down and pick Transportation

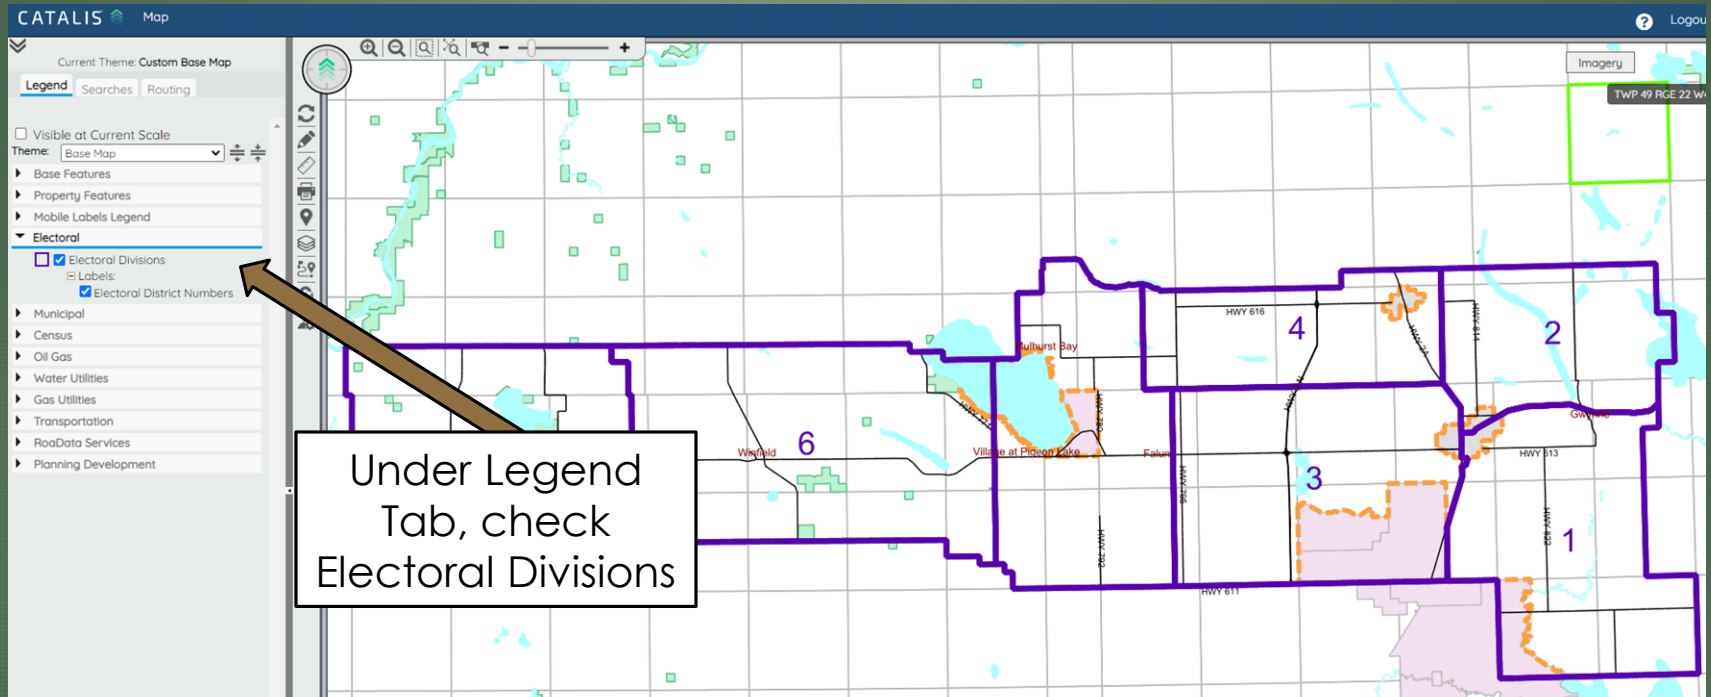

2. Pick Type of search
Find Road
Or
Find Intersection

3. Find Intersection

- Pick 1st Road
- Then pick 2nd Road
- Then click Search

ELECTION & DIVISION NAVIGATION

16

If you click on an election ward this information will display

The screenshot shows a web browser window titled 'Electoral Divisions - Google Chrome' with the URL 'app.munisight.com/CountyofWetaskiwin/Content/Site/DataManagement...'. The page displays a table of electoral division information for Division 6.

Electoral Divisions	
Electoral Area	Division 6

Councillor Email	krooyakkers@county10.ca
Residence (#)	
Total Current Assessment	\$65,227,150
Km Of Public Road	4609

MAP POINTS

(campgrounds, community halls etc.)

17

The screenshot shows the CATALIS Map interface. On the left is the Legend panel with 'Base Features' and 'Property Features' sections. On the right is the Thematic Manager dialog box, which is currently open to the 'Map Points' tab. The 'Map Points' tab shows a list of features with checkboxes, including 'Multi-Family Dwelling(97)', 'Residences(4207)', 'Senior Res/Nursing Home(1)', 'Recreational' (checked), 'Agriplex(1)', 'Campground(2)', 'Community Hall(17)', 'Curling Arena(3)', 'Golf Course(12)', 'Gun Range(1)', 'Hiking Trail(1)', 'Legion Hall(2)', 'Municipal Campground(7)', 'Municipal Day Use Area(5)', 'Museum(1)', 'Outdoor Ice Rink(2)', and 'Private Camp(7)'. A brown arrow points from the 'Community Hall(17)' entry to a text box. Another brown arrow points from the 'Map Points(12501)' entry in the Legend panel to another text box.

Select the feature(s) you want to display on map

Under Property Features Tab, check Map Points
