

# NOTICE OF CONSTRUCTION

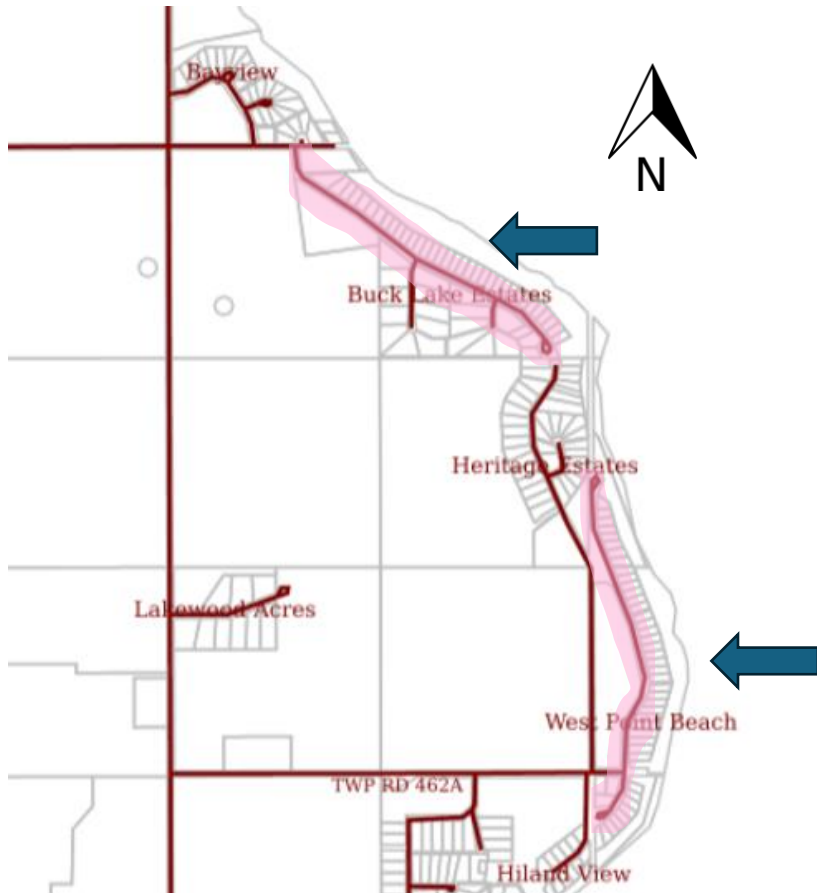

This **Notice of Construction** is to notify the residents of the Subdivisions of **West Pt Beach and Buck Lake Estates** regarding upcoming road pavement upgrades.

## **PROJECT SCHEDULE: July 29 to September 15, 2024**

- Beginning Monday, July 29, crews will establish traffic control and begin road subgrade and culvert repairs.
- New culverts will be installed at many residential approaches. The Contractor will contact each resident prior to the culvert installation to arrange for scheduling and residence access opportunity.
- Following subgrade repairs, ditching and culvert installations, a paving crew will be mobilized to undertake paving.
- Approaches are not planned to be paved under the contract; if residents desire paving of their approach and driveway, they are welcome to approach the contractor for this private work.
- Residents are asked to abide by all traffic controls to protect the workers and the public. Construction is inconvenient and may cause delays. Please respect the crews, be patient and encourage a safe construction site for the duration of the project.

## **Project Contact Information:**

County of Wetaskiwin:	Contractor: Park-Aid Asphalt and Maintenance Ltd.
Neil Powell, Director of Public Works	Jasmine Young, Project Manager
