COUNCIL TOURS MUNICIPALITY VIEWING PROJECTS

On June 5 & 12, County residents may have seen Council and staff on the annual tour of County projects throughout the entire municipality. The tour route covered projects relating to bridges, development, paving, recreation, roads and utilities.

Reeve Terry Van de Kraats stated "The road tour is an important part of the County's operations, providing the opportunity for each Council member to view and better understand the mechanics of the many projects discussed at the Council table. Travelling together on a small bus, also offers time for Council and staff to get to know each other in a less formal setting. This year was, once again, an excellent two days of learning and fun for all tour participants and many thanks go out to the organizing committee who planned and executed the tour."

The following are a few pictures from the road tour.
